You are directly quoting something from page 159 of the course textbook in your essay. How would you cite this in the text of your essay, and how would you cite it in the list of references?

See the other side of this page for snapshots of the front and back of the title page for your textbook. These provide all the info you need for this exercise.

Here is an example of an in-text citation and a reference for a (made-up!) book by one author:

**Full Reference:**

**In-text Citation** for quote from page 18 in the book above:

(Burns, 2019, p. 18)

1. **In-text citation:** __________________________________________________________________________

2. **Reference citation:** Don’t bother double-spacing the reference in this exercise, though you usually would do so. **Underline** information that would usually be in *italics*.

______________________________________________________________________________

CRIM 1101 Practice Exercise: Citing your textbook

Title page
Answer key:

1. **In-text citation:** (Antonacci, 2013, p. 159)

2. **Full reference:**

   Note: I put the place of publication in [square brackets] because this information was not listed on the book itself. I had to look it up the location of the publishing company online. Normally, you will find this information on the back of the title page.
