Canadian Geographical Names Search

Toponyms, or geographical names, are used by us all every day, to describe our surroundings and to tell others where we have been or where we plan to go. When we use maps we expect the names to help us identify features of the landscape, and perhaps even to throw light on the local history of an area.

In Canada, since 1897, names on official, federal government maps have been authorized through a national committee, now known as the Geographical Names Board of Canada (GNBC). Search geographical names by:

Recording Preferred Name - Places with the Same Name
(RDA 16.2.2.13)

• LC-PCC PS
  – Research always required to determine if there is a conflict
  – Conflicts must be broken, even if other place is not in the NAF

“Conflict in place names is not restricted to those already represented in the file against which the searching and cataloging is being done. Instead, if there is no existing conflict in that file, search gazetteers, etc., to determine if two or more places within the same jurisdiction have the same name or if two or more places with the same name would bear the same qualifier for the larger place.”
Recording Preferred Name - Places with the Same Name (RDA 16.2.2.13)

- Include as part of the preferred name of the place a word or phrase commonly used to distinguish them
  
  Alhama de Almería (Spain)

The Roads
From Wikipedia, the free encyclopedia

The Roads is a neighborhood of Miami in Miami-Dade County, Florida, United States. It is a triangular area located south of SW 11th Street, between SW 12th Avenue and SW 15th Road, just west of Brickell.

The Roads is known for its old homes, historic public schools, and its tree-covered streets. The Roads is very close to Downtown and Brickell, but is a historically residential neighborhood. It is also off the normal Miami street grid, and thus all the streets in The Roads are named roads, instead of streets and avenues, as is the case in the rest of Miami. Since 1986, the Miami Roads Neighborhood Civic Association has worked on a variety of projects to support the neighborhood.

The Roads neighborhood is served by the Miami Metrorail at the Brickell station to the south and by the Brickell station to the north.
